

Environmental Horticulture

Angel Sanchez

Submitted by Michael Gonella

Angel is very deserving of this award. He is a model student, with near perfect grades in all horticulture classes, always punctual, and helpful to classmates. He is a leader, setting an example of a strong work ethic to other students, often the first to jump in and do hard, physical labor in class, and his kind demeanor encourages others to join him. He is also a cactus and agave expert, often helping identify and teach other students about these species. He is respectful, highly intelligent, hard-working, humble and friendly - and has a good sense of humor as well. Class would not be nearly as productive or fun without him. We know he is bound for success.
