

Mathematics

Greg Itangishaka

Submitted by Jamie Campbell

Greg was my student in Math 220 in the Fall, and his work was uniformly excellent: neatly and concisely written with few if any mistakes. He scored the highest on most exams and earned an A+ in the course. Looking at his transcript, Greg has earned an A+ in all of our top 200-level courses. Looking back even farther, Greg has progressed through our math curriculum starting in Math 107, earning an A or an A+ in all of our courses! He is clearly one of the best students of ours that I have ever seen.

Greg's Words of Gratitude

I am very honored and grateful for the Recognition of Outstanding Student Award 20-21. I would like to dedicate this Award to all my Math instructors who were always there whenever I had a question. I couldn't do it without them. Thank you
